**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I choose a competitive provider like Sonic over AT&T due to the lack of proper service with AT&T to keep me alive via the internet. Sonic has been able to provide top service that is lacking with AT&T. Through the 8 years with AT&T, I have had several issues of overbilling and failure to provide internet without failure throughout the day. Yes, I have tried to work with AT&T to correct my problems, but at times with controversy.

AT&T paid Trump fixer, Michael Cohen, \$600k to get close to Trump for privileges and access. When it came time to settle an overbilling issue with me, I had to settle for a fraction of what was entitled to me. I was billed for two internet accounts at the same address. One account was for cable internet and the other was the Uverse upgrade. I should have only been billed for the Uverse account after switching over from the cable internet. It took two years to get this billing account corrected.

Whenever there were issues with the phone line or internet, I could only depend on their out of state help to solve physical problems with their equipment.

Our communities in Sonoma County need competitive telephone service and internet connectivity to ensure that broadband is available in a cost effective service to us. We need companies like Sonic that care about the community that I live in. My world and work depend on services like Sonic that are dependable and trust worthy.

After being with Sonic, I will not consider AT&T for my service access to internet nor telephone connection.

Keep Sonic alive via AT&T copper wire.

Thanks,

Frank Saiz
